

Describe your complex issue....

What is the context in which the complex issue takes place?

## Questions to help you out

When do you feel you should do differently but you don't know how?

In what moment are you doing what is asked, but feel like it is not the right thing?

What is happening in your organisation/the world that you get but don't understand?

What cause do you want to strive for?

Which contradiction do you encounter in your daily practice?

Your complex issue in one sentence:

When filling in this question form, you request a free consultation with a designer. Leave your contact details below and the designer will get in touch within two weeks.

Yes I want a free consultation with a designer
